Sri Lanka welcomes proposed policy on "advancing official -
----- Community".

I emphasized the importance of "country-to-country exchange of expertise" as a modality of implementation. I would like to add ~~more~~ one more modality. Can we organize a system for ~~countries~~ ^{some where} to post their practical problems/issues, which can be answered by countries which have knowledge/experience on such problems.

I am sure this will be very effective in experience specially in the areas of SDG as many countries are still not clear about how to go about compiling many of these.
