“Human Well-being and the SDGs: Recovering after the COVID-19 Crisis”

The Fourth North and Central Asian Multi-Stakeholder Forum on Implementation of the SDGs

The Subregional SDG Forum is organized by ESCAP and partners every year to provide governments, civil society, academia, business and the media with a unique opportunity to jointly explore subregional priorities and exchange experiences in implementing the Sustainable Development Goals in North and Central Asian countries.

This year, the Subregional SDG Forum is being held virtually for the first time. Everyone passionate about the big issues of our time is invited to listen to and interact with eminent persons, experts and practitioners on core questions such as:

- What could and should a “new normal” after the COVID-19 pandemic look like and what would “building back better” practically mean in North and Central Asia?
- How can North and Central Asian economies and societies transform and become more sustainable, inclusive and resilient to avoid or better prepare for futures crises?
