

**MNCCI**

 UNIVERSITY OF NORTH CAROLINA  
 CHAIRMAN'S OFFICE

# MNCCI

- To be the leading and proactive stakeholder in development of Mongolian private sector
- To be the main promoter & facilitator for business & investment environment in Mongolia
- To be main business & economy related policy advocacy institution of Mongolia
- More than 3000 members nationwide, 20 branches in different provinces
- Main services of MNCCI

# The initiatives of TF

---

Developed national program named SW, Transit Mongol, export strategy

WTO/TF agreement and Economic partnership agreement with Japan

Research at the border by using TCD to improve the logistics efficiency. See below link [cfcfa.net](http://cfcfa.net)

Did BPA on main export & import products

Submitted results of these researches & studies to the government, ministries and decision makers

Working actively in the CAREC region including the SW, SPS, regional guarantee system and strengthening public awareness etc

Organizing many kinds of workshop, seminars on TTF ...

# Institutional arrangement

---

From the private sector, we can build ins. arrangement, in order to accelerate TTF activities, based on the PPP & PPD, institutionally established in every level:

- The Government & business council under the PM
- The Customs and Business Consolidating committee
- Sectoral councils & committees under the MNCCI

Make a direct cooperation & work closely to get support, make good arrangement between the related stakeholders, improving capacity building & learning from other countries

# Progress on MNSW

---

From the private sector side, we are willing to implement and still working the government, once they decided to get some funding from ADB,

The steering committee on MNSW

In our view:

- Political reason and lackage of funding
- Coordination between the related stakeholders especially leadership is important in our case

# Recommendations

---

Don't wait the government, ministry & parliament until they start, just initiate, lead and bring together all related stakeholders

Role & participation of private sector, more stronger involvement, more initiatives

PPP, PPD, partnership mechanism is more effective

Institutional arrangement, legal conditions and political commitment, now need more real action

Integrated border mgt,

Information & experiences sharing system
