Together We Flourish

# BEYOND THE BASICS

# Reduce Ambiguity/Build Trust

- Gathering, disseminating and benchmarking track record information of PPP projects for member countries of UNESCAP
- **Benefit:** *Investors are ambiguity averse. Reduce ambiguity increase investor confident.*

# Project Pooling (1)

- Pool small, but similar nature (otherwise non-investable) projects across different countries together to form a bigger project.
- **Benefit:** *Reduce project specific and country specific risk.*

# Project Pooling (2)

- Pool projects in different stages across different countries together to form a portfolio.
- **Benefit:** *Reduce project specific and country specific risk; Enhance cash flow payout profile.*

# Securitization

- Packaged a pool of projects together to form asset-backed securities (ABS).
- **Benefit:** *Increase the marketability of the PPP projects*

# Thank you!
