The document provides a copy of the slides presented in the second module of the ESCAP e-learning series on Public-Private Partnerships. The related e-learning video can be watched on the ESCAP website.

### Objectives

- Different models for involving the private sector
- Key characteristics

ESCAP supports governments in the Asia-Pacific region in implementing measures to efficiently involve the private sector in infrastructure development. The ESCAP e-learning series on Public-Private Partnerships contributes to this objective and aims at improving knowledge on PPPs.

PPP models

What are you trying to achieve?

Responsibilities shifted to the private sector?
